

## **Rules for the Use of Statements on Product Packaging or Accompanying Information**

### **1.1 Identification of the Certified Client**

Any statement indicating that the client has a certified management system must clearly identify the certified client. This can be done through the use of the client's brand or name. The identification should be prominently placed and easy to recognize.

### **1.2 Type of Management System**

The statement must specify the type of management system that is certified. This could include, but is not limited to:

- **Quality Management System (e.g. ISO 9001)**
- **Environmental Management System (e.g. ISO 14001)**
- **Occupational Health & Safety Management System (e.g. ISO 45001)**
- **Energy Management System (ISO50001)**

The applicable management system standard must also be clearly referenced in the statement.

### **1.3 Certification Body Identification**

The statement must include the name of NOICE Academy Private Limited as the certification body that issued the certificate. This ensures traceability and clarifies which certification body is responsible for the certification.

## **2. Restrictions**

- **No Product Certification Implication:** The statement must not imply that the product, process, or service itself is certified. It is only the management system that is certified, not the product itself.
- **Type Labels and Identification Plates:** Any type labels or identification plates on the product, which are considered part of the product, must not carry any certification marks or statements. These elements must not suggest product certification in any form.

## **3. Format of the Statement**

Certified clients of NOICE Academy Private Limited are required to include the following information when making any statement on product packaging or accompanying information:

- **Client Identification:** [Certified Client's Name/Brand]
- **Management System:** [Type of Management System, e.g., Quality Management System]
- **Applicable Standard:** [Standard, e.g., ISO 9001:2015]
- **Certification Body:** Certified by **NOICE Academy Private Limited (NAPL)**

Example:

"This product is manufactured by [Certified Client Name] under a certified Quality Management System in accordance with ISO 9001:2015. Certified by NOICE Academy Private Limited (NAPL)."

#### 4. Compliance

Certified clients must adhere strictly to these rules to avoid any misleading statements or implications regarding their certification. Non-compliance may result in suspension or withdrawal of certification.
